Press Release

New Enhanced Line of UL and TÜV Listed Hipot Testers feature the latest technology and safety features.

The 2900 Series of Hipot testers provide advanced technology at a cost-effective price.

Lake Forest, Illinois, Sept. 2002 - Announced today by Slaughter Company, a leading manufacturer of electrical safety testing equipment, is its new line of UL and TÜV listed enhanced hipot testers for safety agency testing requirements from such agencies as UL, TÜV, CSA, IEC, VDE, BSI and the European Norms. The new 2900 series of enhanced hipot testers consists of three different models. The model 2925 is a 12 mA 5KV AC hipot tester. Model 2935 is a 12 mA 5KV AC hipot and 5 mA 6KC DC hipot tester. While the model 2945 provides 3-in-1 functionality including 12 mA 5KV AC hipot, 5 mA 6KV DC hipot and a built-in Insulation Resistance tester with a test range of up to 1000 Megohms. All of the 2900 series feature the newest advanced technologies, including microprocessor control, a liquid crystal display, electronic ramp and dwell, test setup memories and PLC remote control. The 2900 series offers customers these advanced technologies, usually found on instruments costing hundreds of dollars more at a great value, with prices starting at just \$1,195. The 2900 series provides safe and reliable production line testing solutions for manufacturers who are required to perform electrical safety tests without the cost and expense of fully-automated test systems.

Additional features of the 2900 series include:

**Safety agency listing
Low Current Sense
Line and Load regulation
Front Panel Calibration**

**Switchable 50/60 Hz Testing
Tamper Proof Front Panel Controls
Standard Ground Continuity Check
No Load Setup**

Additionally, all of the models in the 2900 series can be interconnected to Slaughter's model 2630, Ground Bond tester, to form a complete test system with a single DUT connection. For more information and detailed specifications, contact The Slaughter Company.

For over 45 years, Slaughter Company has been providing innovative, dependable and cost-effective solutions for electrical safety testing. Contact the company at 1-800-504-0055, e-mail at info@hipot.com or visit our site on the World Wide Web at <http://www.hipot.com>
